Version 5

- Contour - 10m
- Roads
- Paths
- Open area - crossable
- Car park - crossable
- Hedge
- Stream
- XX OOB - Wycombe Road
- OOB - Cemetery

Marlow North and Marlow Bottom Street-O

Important Information

- The earlier Marlow Maprun has been extended to cover Marlow Bottom and Seymour Plain.
- The start is in Marlow Bottom and free parking is available anywhere in the village. Outside of school opening and closing times parking on Marlow Bottom Road near Burford Close should be no problem.
- The start (and finish) is at a Fire Hydrant Sign on the left towards the top of Burford Close.
- Despite being called Marlow Bottom there are many contours for you to tackle. The map shows 10m contours.
- There are many paths in the green wooded areas and the majority of these are shown, but there may be others, so be alert.
- White areas are OOB – you can use roads, paths, open areas and car parks identified on the map. Crossing white areas will incur a penalty.
- The C100 Wycombe Road between the Three Horseshoes pub and Marlow Bottom Road is OOB as it has no footpaths or verges with a 60mph speed limit, and speedy traffic.
- Crossing the C100 near the pub should be done with great care – visibility is good.
- Marlow cemetery is OOB and you may not run through it even though there are paths, which are not mapped.
- Running the course at night will require a head torch as many of the paths and some roads are unlit.
- Control points are shown in the table to the right. They are often lamp posts or electricity poles, with occasional other features. They are not always exactly at the junctions or crossroads, so make sure you visit the control site, or penalties will be incurred.
- The usual Street-O points system is used.
Controls 10-19 = 10 points
Controls 20-29 = 20 points
Controls 30-39 = 30 points
- The time limit is 60 minutes with 20 points penalty for every minute or part minute late.

Control No.	Description
Start/Finish	Fire Hydrant sign – Left hand side of Burford Close
